View our plans for the

St Matthew's Centre, Sturton Street

Federated Hermes are preparing plans to improve the St Matthew's Centre site with a new community café for St Matthew's Piece and a contemporary and sustainable new building for student living.

In 2014 aLL Design, the internationally renowned architecture and design studio, developed a proposal for a new contemporary building for student living through discussions with Cambridge City Council and via a co-design workshop and public exhibition involving the local community.

Due to the COVID-19 restrictions in place, we are unable to host the public exhibition which we had planned to show our plans to the community. Instead, we are ensuring that you can view our plans in a safe way, which you can find here:

www.stmatthewscentreproposals.co.uk

We do understand that not everyone is able to get online, so the same information is available as a hard copy. If you would like to receive a copy of the plans, have any questions or give us feedback, please contact us.
